

## Resolution Video Retrieval Kit

*If you can see it, you can collect it...*

Digital video evidence is everywhere. It captures every move and can prove extremely valuable to law enforcement investigations. The problem is there are so many types of digital video recorders and no standard for retrieving video evidence from those recorders. These digital video recorders can be so complicated that investigators sometimes leave their video evidence behind.

With the **Resolution Video Retrieval Kit**, you will never leave a scene again without video evidence!

### Everything You Need, All In One Place

The Resolution Video Retrieval Kit contains all the critical items you need on the scene to retrieve video evidence from a digital video recorder: CDs, DVDs, USB Flash Drives, Video Recorder, Scan Converter, and all the necessary cables and connectors. Collect the best evidence, every time!

### Small and Extremely Portable

With the Resolution Video Retrieval Kit, all your tools are neatly organized and readily available. The Kit weighs less than 10 lbs and measures 14.5" x 11.5" x 6.5" making it easy to take on the road and bring on the scene. Outfit an entire crime scene unit, property crime unit, and violent crime unit with the Kit and know that video evidence is being collected.
